Opening Honours Academic Year

Towards Inclusive Honours Education

We are excited to invite you to join us for the opening of the Honours Academic Year "*Towards Inclusive Honours Education*"!

Honours directors, teachers and students are all welcome on this evening to celebrate the new academic year with the honours community. The evening will be a great opportunity to get to know others within the honours community and explore different practices of teaching in honours education. We look forward to seeing you there!

Please sign up [here](#) (until 26 October)

Workshop 1: Blended Learning

We must all find our way in this changed world, and this may include 'blended' education: a thoughtful integration of 'face to face' and online learning. What are the challenges and what are the opportunities of 'blended' design, specifically for Honours education? During this workshop we will jointly explore the answers to these questions and co-create possible solutions.

Tikvah Breimer from [Studio Blended](#) and Delft University of Technology

Workshop 2: Problem Based Learning

Today's existential challenges ask us to reconsider our didactic approaches and the foundations of teaching. During this workshop we will explore the origins, evolution and practice of Problem Based Learning. We will focus on the role of the student and teacher in this context, and finally discuss how the PBL philosophy could be applied in other learning environments.

Walter Jansen, Senior Coordinator
Innovation EDLAB at Maastricht
